

**COURSE CODE/TITLE: CPE 031-CPE21S1 -
Visualization and Data Analysis**

SECTION: CPE21S1

DATE PERFORMED: July 18 2026

DATE SUBMITTED: July 18 2026

NAME: Mendoza, Roy Gabriel I.

INSTRUCTOR: Engr. Jimlord Quejado

ACTIVITY NO.1 Hands-on Activity 1 | Pivot Charts

1. PROCEDURE OUTPUT

PART 1:

Proof of Completion

The screenshot displays a user profile for ROY GABRIEL MENDOZA, a BSCE Student at the Technological Institute of the Philippines. The course outline shows progress through various modules, with the current focus on '1.3.8 Lab - Pivot Charts'. The achievement screen features a large trophy icon and the text 'You Completed Part 1' and 'Great Work!'. A table titled 'pivot_clothing' is visible, showing a list of clothing items with their types, colors, and sizes.

item	type	color	size
1	pants	red	L
2	shirt	green	L
3	sock	red	L
4	pants	green	S
5	sock	blue	S
6	shirt	blue	S
7	sock	red	L

Learnings:

>> I have learned how to properly use this software, specifically the pivot charts. I have also managed to be able to think critically on the proper placing of the right parameters per number to find what is being asked correctly.

1.0. Introduction 3 / 3

1.1. What is Data? 8 / 8

1.2. Data is All Around Us 6 / 9

1.3. Business Understanding 5 / 8

1.3.1 Video - Data Analytics for Business Insights

1.3.2 Practice Item - Data Analytics for Business Insights

1.3.3 Video - Humanitarian Insights from Data Analytics

1.3.4 Social Examples

1.3.5 Practice Item - Social Examples

1.3.6 Environmental Example - Climate Change

1.3.7 Practice Item - Environmental Example - Climate Change

1.3.8 Lab - Pivot Charts

1.4. Experience Analytics Summary 0 / 3

Module 2: Data Collection and Storage

1.3.8 Lab - Pivot Charts

AD	Andorra	Europe	77000	468
AE	United Arab Em	Asia	9631000	83600
AF	Afghanistan	Asia	37172000	652090
AG	Antigua and Ba	North America	96000	442
AI	Anguilla	North America	15000	96
AL	Albania	Europe	2866000	28748
AM	Armenia	Asia	2952000	29800
AN	Netherlands An	North America	227000	800
AO	Angola	Africa	30810000	1246700
AQ	Antarctica	Antarctica	1000	1312000
AR	Argentina	South America	44495000	2780400
AS	American Sam	Oceania	55000	199
AT	Austria	Europe	8841000	83859
AU	Australia	Oceania	24983000	7741220
AW	Aruba	North America	106000	193
AZ	Azerbaijan	Asia	9940000	86600
BA	Bosnia and Her	Europe	3324000	51197
BB	Barbados	North America	287000	
BD	Bangladesh	Asia	161356000	
BE	Belgium	Europe	11433000	30518

Learnings:

>> I have managed to understand more in depth how and what is being searched for every task given by the software, and was able to complete it correctly. Given a more difficult question, I was able to enact a more critical thinking way to proceed with each successive tasks faster by looking at the keywords, although I believe that in the real world, no such things are gonna happen(the bold words), but still, looking for keywords on what is being searched for instead of reading it all over again is much faster compared to just redoing the reading.

Learnings:

LEARNINGS:

>> I was able to create something to find what is usually the amount of scoops per ice cream sold, so I suggested to the owner(last part) that they should add an addons that the customers pay more for another scoop of ice cream, but they have to decrease the amount of average scoop to 3. In essence, the learnings that I have managed to gain from Part 3 was, to have a suggestion(although it is a capitalist remark) that I have managed to be inferred or gain from the situation that was given to me, by following this, if more data management tasks were to come, I could find a fault or something more to improve on for a more better data manipulation or more way to "seal" any cracks and get the most opportunity that I have with regards to the data.

3. ARTIFICIAL INTELLIGENCE (AI) USE DISCLOSURE STATEMENT

I hereby declare that artificial intelligence (AI) tools were used, if applicable, in the preparation of this academic work. The following indicates the nature and extent of AI assistance:

Tools Used: _____

Examples: ChatGPT, Microsoft Copilot, Grammarly, QuillBot, etc.

Purpose of Use: _____

Examples: grammar correction, idea generation, formatting, summarization, code assistance, explanation of concepts, etc.

Extent of Use: _____

Explain how AI was used and confirm that it did not replace original thinking, analysis, authorship, or completion of the required work.

By submitting this activity, I affirm that my use of AI complies with T.I.P.'s AI usage policy and does not exceed the permitted limits for similarity, automated content generation, or academic assistance.

I understand that any false, incomplete, or misleading disclosure may be subject to investigation in accordance with due process and may result in sanctions for violation of existing T.I.P. policies.

Lab activities, templates, and related instructional materials shall not be reuploaded, reproduced, distributed, or shared with external organizations or third parties without the prior express written permission of the Technological Institute of the Philippines.

Please have the honor of pledge in the comment section or at the bottom of your activity document/exam or any form of file submission.

I affirm that I will not give or receive any unauthorized help on this activity/exam and that all work will be my own.
